

HGC180-22

ARTICULATED HEDGE TRIMMER ATTACHMENT

You're always looking for that perfect upgrade that can significantly cut your work time. Look no further - the HGC180-22 Articulated Hedge Trimmer Attachment from TMC Power Equipment has arrived!

When the HGC180-22 is attached to a compatible line trimmer, you now have a hedge trimmer capable of reaching up to 62" in height, eliminating the need for a ladder and the person idly standing by to hold it. The HGC180-22 is equipped with two dual reciprocating 22" blades that can be adjusted through a full $\pm 90^\circ$ with a simple turn of a lever, ensuring that you get the right cut safely and neatly, whether the work sur-

face is above your head or below your knees and whether the area you are cutting is vertical, horizontal or anywhere in between.

The HGC180-22 is easily installed. Simply remove the gear head and debris shield on your compatible line trimmer, slide the HGC180-22 on the end of the shaft, and tighten the bolt and screw. It's that easy! And with TMC's legendary model compatibility, odds are likely that the HGC180-22 is compatible with your line trimmer. Check the chart below to verify compatibility.

The best thing about the HGC180-22? It is built with the performance and durability that you have come to expect from TMC Power Equipment. Equip yourself today and reap the benefits for years to come.

SPECIFICATIONS
